2. Agendas

- ✓ content of the website
- ✓ How do we want the next assembly to look like?

- Ragnar shared the website on the screen where the Education table was already at the site .Great move it was and shared the idea of placing the heading of each table.Share and structure before putting it to the web.
- Miniver to send Dorothy videos and pictures of what she is doing in Zambia so that they are shared in the website
- Ragnar asked Dorothy on the follow-up of Dana Humanist school in Rusinga where Abel,Rose and Dorothy will visit to learn and commemorate the day of the African child .
- Antonio shared about the formation of a table of personal development or self liberation.

Antonio shared a summary of what should be done in the table for personal development that will help in sensitization and awareness creation ,”Let's distribute so that everyone gets to avoid cases ,because you have plenty while others don't, they will pick it from you “.

We should get plenty of materials and learn from other thematic tables so that we focus on the vision and mission of the table.

- Antonio shared about having ideas of those countries that have developed in education so that we learn from them.

- Rose suggested we should at least collect all the materials and combine and have a guide/manual that will give us guidelines even approaching schools and stakeholders.

- Miniver @Antonio, Julius and Ragna to help work on the introduction letter that will help her in Zambia.

- Dorothy suggested we should have our meetings once monthly so that we get intense conversation on the agenda and also the attendance.

- Antonio shared and “what is the aim of the education table ?What work is the education table focusing on?”

Continued by saying it's something that we should think about so that in our next meeting we come up with one goal and focus on it.

3.Conclusion

- Ended with peace ,force and joy
